

WHEN IT COMES TO FULFILLING A COMPLETE RANGE OF LIGHTING REQUIREMENTS FORMED PLASTICS OUTSHINES THEM ALL.

For the highest quality post top globes, spheres or refractors, we're the company to turn to.

SPHERES Ultra clear injection blow molded spheres available in acrylic and polycarbonate from 6" to 24" in diameter. Rotational molded polyethylene spheres available from 6" to 36" diameter.

POST TOP GLOBES Nostalgic "acorn globes." Most models are blow molded offering superior appearance and impact strength and are available in polycarbonate and high impact acrylic. Requirements for photometric performance and controlled up light for dark sky can be satisfied using our prismatic post top globes.

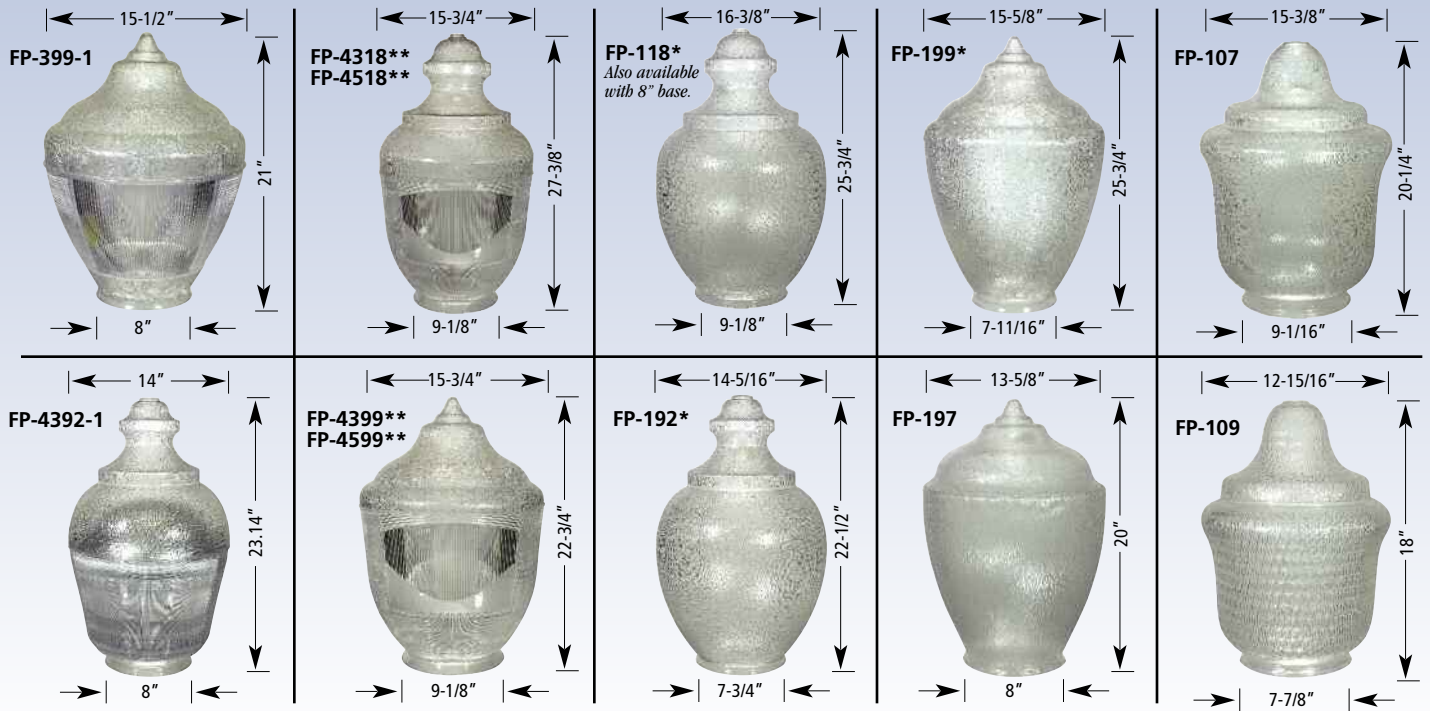

REFRACTORS Many styles of pendant refractors available from stock. Refractors are manufactured in acrylic and polycarbonate in a variety of light patterns.
